

Ding Dong

Sensory Bottle

You will need:

- Nontransparent plastic bottle with lid (so that the sound is the main focus of the activity).
- Several small metal bells.
- Strong glue.
- Tape (optional).

Method:

1. Place the bells into the bottle.
2. Secure the lid with hot glue or strong glue. You may also wish to tape around the lid for extra security.
3. Listen to the ding-a-ling of the bells and the different sounds they make as you shake, roll, spin, and tap the bottle.

Disclaimer: This resource is provided for informational and educational purposes only. As this resource refers to sensory activities, sometimes including food items/ingredients, you must ensure that an adequate risk assessment is carried out prior to using this resource. This resource is not taste-safe. You must contact a suitably qualified professional if you are unsure. Twinkl is not responsible for the health and safety of your group or environment. Please be aware that learners should be supervised at all times due to potential hazards with handling and exploring sensory objects, particularly young or vulnerable learners. Sensory activities can engage learners in their play and learning, but supervising adults should check for allergens and assess any potential risks before the activity and only proceed if it is safe to do so, for example, even the shallowest amount of water can be extremely dangerous. Learners should wash their hands before and after these activities.
