

Plant Life Cycles

Home Learning Challenge

Look at some plants and flowers growing in a park or a garden. Can you see different parts of the life cycle? Can you see any seeds? Have flowers grown yet? Draw or paint a picture of your favourite plant or flower.

Katie plants 3 seeds in the ground. Then Michael plants 2 seeds. How many seeds have they planted altogether? You could use your fingers or draw a picture to help you.

Have a look at some packets of seeds in a garden centre or supermarket. What different types of seeds can you find? Can you see what the seeds will grow into?

Try planting some seeds or bulbs in a pot. Some plants take a long time to grow but others, like cress seeds, can grow quite quickly. Remember to give your seeds or bulbs some water and put them somewhere sunny. What do you think will happen next?
